DESIGN PIETER STOCKMANS

De vormen kunnen op verschillende manieren gecombineerd worden zodat je er je eigen tafellandschap mee kan bouwen. "Mensen worden op die manier aangezet tot creativiteit, zodat ze meer plezier beleven aan elk onderdeel van het servies", aldus Pieter Stockmans.

Les formes peuvent être combinées de différentes manières permettant de créer son propre paysage de table unique. « Cela encourage la créativité. Les gens auront ainsi plus de plaisir de chaque pièce de leur vaisselle », explique Pieter Stockmans.

By combining the shapes in different ways you can bring your personal touch to your table.

"It prompts people to be creative and enjoy every single piece of the dinnerware each time in different ways", says Pieter Stockmans.

Le forme possono essere unite in vari modi per dotare il tavolo apparecchiato di un tocco sempre diverso e personalizzato. Secondo Pieter Stockmans "in questo modo viene stimolata la creatività ed è un vero divertimento mettere in tavola ogni elemento del servizio".
